

## **AIR FILTER RESTRICTION GAUGE**

**PART #15701207 — ACCESSORY ITEM**

**THE EM PRODUCTS AIR FILTER RESTRICTION GAUGE MONITORS THE AIR FILTER.** As the filter restriction increases, the yellow indicator moves down the window. The air filter should be serviced once the maximum desired restriction is reached. The gauge should then be reset by pushing the yellow reset button.

### **STANDARD FEATURES:**

- 1/8" NPT tap provided on all EM filter housings to allow for direct mount
- 0 - 20" w.c. range
- Push button reset
- Compact design: 2"w x 3"h

### **BENEFITS:**

- Continuously monitors filter condition
- Graduated levels make gauge reading easy and accurate
- Takes guess work out of monitoring restriction while optimizing maintenance intervals
- Aids in maximizing process efficiency
